Christopher Schmitt
Primate behavior, genomics, life history and development, evolution of obesity

Michael Latner
Political behavior, cultural evolution, constitutional design

Stacey Lynn Rucas
Sleep, female-female competition and cooperation, friendship, reproductive ecology

Dawn Neill
Human behavioral ecology, nutritional anthropology, parental investment, urbanization

Steve Gjerstad
Experimental economics, general equilibrium theory, market adjustment processes, financial crises

Eric Schniter
Life history theory, cooperation theory, contributions of older adults

Timothy Shields
Behavior in face of ambiguity, standards of behavior, commitment devices in conflict

Robert Roussel
Political psychology, mass political beliefs, cultured media, group-based identities, public policy

Aaron Goetz
Intrasexual competition, formidability, contest competition, implicit rules of combat, competitive strategies, reproducibility

Elizabeth Pillsworth
Reproductive strategies, life history, parent-offspring conflict, Shuar

Jessica Ayers
FWHR, aggression, violence, testosterone

Amanda Barnes-Kennedy
Parent-offspring conflict, parenting, development, medicine, nutrition

Patrick Durkee
Psychology, male intra-comp, perceptions of formidability

9th Annual California Workshop on Evolutionary Social Science
Michael Lopez
Psychology, evolution, intrasexual male competition

Justin Lynn
Hormones, ovulation, mate guarding, sexual jealousy, fertility, mate attraction, coercion

Giovanni Magginetti
Mating and parenting, sexual strategies, ovulation, technology

Holly Pittaway
Mate preferences, hormones, ovulation

Jeremy Pollack
Supernatural agency, aggression, formidability, threat assessment

Jenna Puchalski
Spontaneous assessments of formidability, free open access to education, psychometrics

James Zerbe
Evolutionary anthropology, cooperation, coalitional competition, experimental economic games

Monique Borgerhoff-Mulder
Human life histories, sexual selection, conservation, inequalities

Margaret Crofoot
Primate behavior, movement ecology, collective behavior, intergroup competition, group decision-making

Pete Richerson
Cultural evolution, gene-culture coevolution, cultural group selection, Pleistocene

Curtis Atkisson
Individual and population interactions, cooperation, foraging strategies

Roshanne Bakhtiary
Coastal archaeology, hunter-gatherer settlement patterns, human behavioral ecology and East Asian archaeology

9th Annual California Workshop on Evolutionary Social Science
UC Los Angeles

Tamar Boussina
Primate social networks and disease transmission, Primat e socioecology, Human-monkey conflict

Katrina Brock
Mathematical modeling, agent based modeling, animal behavior, cooperation, foraging

Grace Davis
Primateology, social foraging, collective decision-making

Cody Ross
Bayesian networks and multi-level analysis, adaptive cultural phylogenetic modeling

UC Davis (cont)

Clark Barrett
Evolutionary psychology, social cognition, cultural transmission, cognitive development

Greg Bryant
Vocal communication, cross-cultural voice production and perception, acoustic phonetics, pragmatics, music

Joe Manson
Subclinical psychopathy, zero-acquaintance interaction, cooperation

Edward Clint
Evolutionary medicine, fever, PTSD, life history theory, psychopathology

UC Santa Barbara

Aaron Blackwell
Life history, immune function, forager-horticulturalists, growth, parasites

Michelle Brown
Primate behavioral ecology, between-group conflict, energetics and stress

Adrian Jaeggi
Cooperation in primates, food sharing, psychology of cooperation, socio-ecology, wealth inequality, Tsimane

Sarah Alami
Evolutionary anthropology, behavioral ecology, global health, health transitions, Tsimane

Michael Barlev
Social cognition, belief in supernatural agents

9th Annual California Workshop on Evolutionary Social Science
Tran Dinh
Fat deposition patterns, behavioral endocrinology, sex differences in friendship dynamics

Angela Garcia
Social inequality, perceived poverty, stress, health, human biodemography, ecological immunology

Sangin Kim
Cooperation, punishment, social evaluation, sexual strategy

Melanie Martin
Nutritional and disease ecology, lactation, maternal and infant health

Spencer Mermelstein
Evolution & cognition, cognitive science of supernatural beliefs, theory of mind

Anne Pisor
Group affiliation, prosociality, trust, life history

Emily Beggs
Latin America, Mexico, nutritional ecology, obesity and diabetes, gender, social networks, risk, uncertainty and rural livelihoods

Elly Power
Religious practice, signaling theory, social network analysis, social capital, reputation, South India

Michael Price
HBE, optimal foraging theory, origins of agriculture, utility theory
Attendees

Attending, not pictured

Kelsey Molidor, Cal Poly
McKenna Johnson, Cal Poly
Jennifer Guendling, CSUF
Joel Winegar, CSUF
Kotrina Kajokaite, UCLA
Chris Peterson, UCLA
David Pinsof, UCLA
Andrew Smith, UCLA
Brian Barbier, UCSB
Sarah Bay, UCSB
Nikka Keivanfar, UCSB
Weston McCool, UCSB
Sofie Nielsen, UCSB/UCPH
Madeleine Zoeller, UCSB
